

# CERTIFICATE OF COMPLIANCE

**Certificate Number** 20190409-MH60720  
**Report Reference** MH60720-20150407  
**Issue Date** 2019-April-09

**Issued to:** C.N Clark Company  
1403 Person St.  
Durham, NC 27703

**This is to certify that  
representative samples of**

Component – Label for use in Protective Clothing and Equipment for Wildland Fire Fighting; Protective Ensembles for Proximity Fire Fighting; Protective Garments and Hoods for Structural Fire Fighting; Protective Ensembles for Technical Rescue Incidents; and Emergency Services Work Apparel

Label Style: Sew-in Flame & Fire Resistant NMX

Have been investigated by UL in accordance with the Standard(s) indicated on this Certificate.

**Standard(s) for Safety:**

NFPA 1977, Standard on Protective Clothing and Equipment for Wildland Fire Fighting, 2016 Edition; NFPA 1971, Standard on Protective Ensembles for Structural Fire Fighting and Proximity Fire Fighting, 2018 Edition; NFPA 1951, Standard on Protective Ensembles for Technical Rescue Incidents, 2013 Edition; and NFPA 1975, Standard on Emergency Services Work Apparel, 2019 Edition.

**Additional Information:**

See the UL Online Certifications Directory at [www.ul.com/database](http://www.ul.com/database) for additional information

Only those products bearing the UL Certification Mark should be considered as being covered by UL's Certification and Follow-Up Service.

Recognized components are incomplete in certain constructional features or restricted in performance capabilities and are intended for use as components of complete equipment submitted for investigation rather than for direct separate installation in the field. The final acceptance of the component is dependent upon its installation and use in complete equipment submitted to UL LLC.

Look for the UL Certification Mark on the product.

This is to certify that representative samples of the product as specified on this certificate were tested according to the current UL requirements.

Bruce Mahrenholz, Assistant Chief Engineer, Global Inspection and Field Services

UL LLC

Any information and documentation involving UL Mark services are provided on behalf of UL LLC (UL) or any authorized licensee of UL. For questions, please contact a local UL Customer Service Representative at <http://ul.com/aboutul/locations/>

Thermal Exposures from Fire, 2018 Edition

**Additional Information:**

See the UL Online Certifications Directory at  
[www.ul.com/database](http://www.ul.com/database) for additional information

Only those products bearing the UL Certification Mark should be considered as being covered by UL's  
Certification and Follow-Up Service.

The UL Recognized Component Mark generally consists of the manufacturer's identification and catalog  
number, model number or other product designation as specified under "Marking" for the particular  
Recognition as published in the appropriate UL Directory. As a supplementary means of identifying products  
that have been produced under UL's Component Recognition Program, UL's Recognized Component Mark:  
, may be used in conjunction with the required Recognized Marks. The Recognized Component Mark is  
required when specified in the UL Directory preceding the recognitions or under "Markings" for the individual  
recognitions.

Recognized components are incomplete in certain constructional features or restricted in performance  
capabilities and are intended for use as components of complete equipment submitted for investigation rather  
than for direct separate installation in the field. The final acceptance of the component is dependent upon its  
installation and use in complete equipment submitted to UL LLC.

Look for the UL Certification Mark on the product.
